GUIDANCE NOTES

Before you carry out building work to which the Building Regulations apply, you or your agent must either deposit Full Plans or a Building Notice, together with the appropriate charge. The charge payable is dependent upon the type of work carried out and can be calculated by reference to the following notes and schedules.

CHARGES PAYABLE:

Plan Charge: If you submit Full Plans, you have to pay the charge in Column (A) at the time of submission to cover their passing or rejection.

Inspection Charge: With Full Plans submissions, for most types of work an inspection charge covering all necessary site visits will be payable after we have made the first inspection. If applicable, you will be sent an invoice for this charge, shown in Column (B).

Building Notice Charge: Should you submit a Building Notice, the appropriate Building Notice charge in Column (C) is payable at the time of submission and covers all necessary checks and site visits in relation to the work described in the notice.

Regularisation Charge: (Column D): If you are making an application for a regularisation certificate of unauthorised building work,

the charge is equivalent to 120% of the Building Notice charge. *No VAT is payable on a regularisation charge*

SCHEDULES:

Schedule 1 - Charges for Small Domestic Buildings, e.g. certain new dwelling houses and flats

Applicable where the total internal floor area of each dwelling, excluding any garage or carport does not exceed 300m² and the building has no more than 3 storeys, each basement level being counted as one storey. In any other case, Schedule 3 applies.

Schedule 2 - Charges for Certain Small Buildings and Domestic Extensions

Where work comprises more than one domestic extension, the total internal floor areas of all storeys of all the extensions shown on the application may be added together to determine the relevant charge. If the extension(s) exceed 60m² or 3 storeys in height, then Schedule 3 applies.

Schedule 3 - Charges for Other Work

Applicable to all other building work not covered by Schedules 1 or 2. Total estimated cost means an acceptable estimate that would be charged by a person in business to carry out the work shown or described in the application,

EXEMPTIONS / REDUCTIONS:

Where plans have been either approved or rejected, no further charge is payable on resubmission for substantially the same work.

Works to provide access and/or facilities for disabled people to existing dwellings and buildings to which the public have access, are exempt from charges. In these regulations, "disabled person" means a person who is within any of the descriptions of person to whom section 29(1) of the National Assistance Act 1948 applies. Where an application or building notice is in respect of two or more buildings or building work, all of which is substantially the same as each other, or such application or building notice have previously been dealt with by this authority, with certain criteria, a reduction of 25% on the plan charge or on the plan charge proportion of the building notice charge is allowable.

General: These notes are for guidance only. Full details may be found in the Council's Building Control Charges Scheme which is available on request. If you have any difficulties calculating charges, please contact us on 01372 732000.
