

How can we help?

Disabled Facilities Grants

We can provide grants for essential adaptations to assist a disabled person to stay safe and independent in their home. Initially your needs will be assessed by an occupational therapist and they will send us their recommendations.

Discretionary Housing Grants

These grants are to assist vulnerable residents to carry out a wide range of minor adaptations, small repairs and security measures around the home. This reduces risks and accidents to help you feel safe and secure in your home.

Handy Person Service

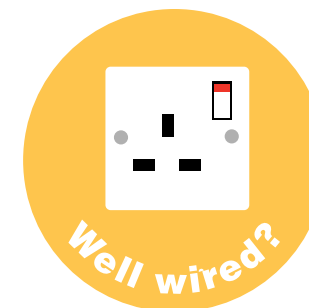

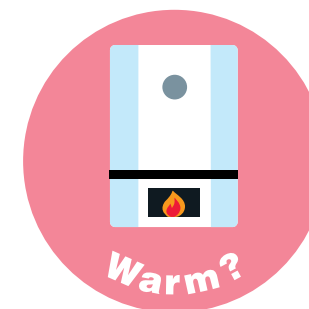

If you are 65+ or disabled and on a means tested benefit, we may be able to help you with small jobs around the home.

Higher Needs Services

- Community Alarm
- Meals at Home
- Transport from Home
- Wellbeing Daycare

Is your home...

Our services are only available to residents living in Epsom and Ewell. To find out if you are eligible for any assistance please contact us:
